## Law Enforcement Implicit Bias Training

Town of Bel Air  
Bel Air Armory  
37 N. Main Street  
Bel Air, MD 21014

Thursday, August 15, 2019  
8:00 am – 4:00 pm

## About the Program:

Through this training Law Enforcement Personnel will learn how to recognize and address their own implicit biases which are the unconscious or subtle associations that individuals make between groups of people and stereotypes about those groups.

## Fact:

With an ever increasing African American and Latino community in the state, it's important that all of our first responders, especially our law enforcement officers, learn to identify their implicit biases.

No one is exempt from having predetermined beliefs or opinions about someone's character based upon their race, religion or sexual identification. This list is not all inclusive, there are numerous identifiers that make us different and are subject to stereotypes.

## Who Should Attend?

This training is intended to bridge the gap between Officers / Deputies and the communities that they serve. This training will benefit any law enforcement official, civilian or sworn who has contact with the community they serve. Additional classes will be offered in 2019.

**MPCTC approved.**

**Member Cost: Free**
