

Testimonials from an Employer's Perspective...

"From my perspective, CC3 is an irreplaceable service at a time when most families are facing their most medically challenging choices of their lives. The staff at CC3 enters people's lives when they are scared and possibly facing a heartbreakin future. We made a very good choice by adding this service to our healthcare line-up."

--**Beth Johnston, HR Director**

"I can only be honest. ConnectCare3 is probably the best addition to our health benefits since the Township first began providing health care benefits."

--**Jack Hines, Manager**

"ConnectCare3 is a patient advocate program that is almost too wonderful to even be possible! From the time of its origination in 2008, CC3 has helped over 300 patients find their way back to health, from the time of diagnosis through recovery. I have served on CC3's Advisory Board for the past two years, and I am amazed at its growth, professionalism, and overall success. Peace of mind & body -- CC3 ensures the best possible care both mentally and physically."

--**Barb Bartek, HR Director**

"ConnectCare3 is a like a lifeline when serious health issues arise for our employees. The professional and experienced CC3 staff is able to provide expert options on what doctors at which facilities can offer the best healthcare and provide support throughout the entire process."

--**Mark Kunkle, Manager**

"Since joining Benecon and becoming part of a health insurance cooperative, an added benefit has been the creation of CC3. CC3 gives our employees reassurance and a comfort level, should a medical situation arise for them or their family, that there is someone to turn to for help, research and guidance that they cannot get anywhere else. I highly encourage all of our employees to take advantage of this service when needed."

--**Ed Cramer, Chairman**

"As an added health benefit, CC3 provides our employees a cutting edge resource for not only educational purposes but a helping hand during stressful times of a complicated medical diagnosis."

--**Shannon Berkey, Finance Director**

"I must admit when I first heard presentations about CC3, I was a skeptic. I really didn't think our employees would use it. Wow, was I wrong! One employee in particular has used them extensively to help him deal with a serious illness. Their kindness, patience, and willingness to go the extra mile have helped him realize that he is not alone on his journey. The CC3 staff is incredible! I highly recommend their services to anyone dealing with a medical condition and can't thank them enough for their service to our employees."

--**Tom Hamilton, HR/Risk Manager**

"At first blush, I was unsure as to what benefit CC3 would be to our employees. That changed when we encountered our first experience with a terminally ill member of the Hampden family. The employee was provided CC3's contact information and they were called. CC3 immediately went to work assisting this employee and his family along the way. Although when CC3 was called things were serious, their help and guidance provided a positive experience for the employee and his family. Presently CC3 is involved with another Hampden family member. This employee has spoken highly of the services provided and how comforted she has been by CC3's presence. As Township Manager it is comforting to know that CC3 is there to offer their assistance and expertise in navigating a complicated medical maze to ensure our family members are getting the full scope of assistance that is provided within our medical plans. Although it is never a good thing when CC3 has to be called, CC3's response is immediate and productive."

--**Michael Gossert, Manager**
